These calculations are tools for learning more about the mortgage process and are for educational/estimation purposes only. MI factor being used on an FHA scenario is .85% and that could vary depending upon loan to value and/or loan size. This does not constitute an offer or approval of credit. Contact a Highland HomeLoans loan officer for actual estimates.

For example, a Conventional fixed rate loan with the terms purchase price of \$550,000, on a loan term of 360 months, down payment of 20%, and an interest rate of 6.75%, will result in an annual percentage rate of 6.849% with \$4,415 in APR fees. Rate pulled 10/19/22, rates change daily. Loans are subject to borrower qualifications, including income, property evaluation, and final credit approval.
